Notes:

[1] 2021 and 2016 population

Statistics Canada is committed to protect the privacy of all Canadians and the confidentiality of the data they provide to us. As part of this commitment some population counts of geographic areas are adjusted in order to ensure confidentiality.

The adjustment to counts of the total population for any dissemination block is controlled to ensure that the population counts for dissemination areas will always be within 5 of the actual values. The adjustment has no impact on the population counts of census divisions and large census subdivisions.

[2] Total private dwellings

Private dwelling refers to a separate set of living quarters with a private entrance either from outside the building or from a common hall lobby vestibule or stairway inside the building. The entrance to the dwelling must be one that can be used without passing through the living quarters of some other person or group of persons.

[3] Private dwellings occupied by usual residents

A private dwelling occupied by usual residents refers to a private dwelling in which a person or a group of persons is permanently residing.

Also included are private dwellings whose usual residents are temporarily absent on May 11 2021.

[4] The category 'Movable dwelling' includes mobile homes and other movable dwellings such as houseboats recreational vehicles†and railroad cars.

[5] A census family is defined as a married couple (with or without children) a common-law couple (with or without children) or a one-parent family. For more information refer to the†Census Dictionary: Census family structure.

[6] There is no age restriction on children. Includes children living with a grandparent or grandparents without a parent present.

[7] Includes foster children.

[8] Multigenerational households represent all households where there is at least one person who is both the grandparent of a person in the household and the parent of another person in the same household. They also represent all households where there is at least one person who is both the child of a person in the household and the grandchild of another person in the same household. In previous censuses multigenerational households were only created based on the former definition not the latter. As a result there may be small differences in counts for 2011 and 2016 in archived tables.

[9] Excludes multigenerational households.

[10] Total income - The sum of certain incomes (in cash and in some circumstances in kind) of the statistical unit during a specified reference period. The components used to calculate total income vary between:

*statistical units of social statistical programs such as persons private households census families and economic families

*statistical units of business statistical programs such as enterprises companies establishments and locations

*statistical units of farm statistical programs such as farm operator and farm family.

In the context of persons total income refers to receipts from certain sources before income taxes and deductions during a specified reference period.

In the context of census families total income refers to receipts from certain sources of all of its family members before income taxes and deductions during a specified reference period.

In the context of economic families total income refers to receipts from certain sources of all of its family members before income taxes and deductions during a specified reference period.

In the context of households total income refers to receipts from certain sources of all household members before income taxes and deductions during a specified reference period.

The monetary receipts included are those that tend to be of a regular and recurring nature. Receipts that are included as income are:

*employment income from wages salaries tips commissions and net income from self-employment (for both unincorporated farm and non-farm activities)

*income from investment sources such as dividends and interest on bonds accounts guaranteed investment certificates (GICs) and mutual funds

*income from employer and personal pension sources such as private pensions and payments from annuities and registered retirement income funds (RRIFs)

*other regular cash income such as child support payments received spousal support payments (alimony) received and scholarships

*income from government sources such as social assistance child benefits Employment Insurance benefits Old Age Security benefits COVID-19 benefits and Canada Pension Plan and Québec Pension Plan benefits and disability income.

Receipts excluded from this income definition are:

*one-time receipts such as lottery winnings gambling winnings cash inheritances lump-sum insurance settlements and tax-free savings account (TFSA) or registered retirement savings plan (RRSP) withdrawals

*capital gains because they are not by their nature regular and recurring. It is further assumed that they are more relevant to the concept of wealth than the concept of income

*employers' contributions to registered pension plans Canada Pension Plan Québec Pension Plan and Employment Insurance

*voluntary inter-household transfers imputed rent goods and services produced for barter and goods produced for own consumption.

After-tax income - Total income less income taxes of the statistical unit during a specified reference period.

Income taxes refers to the sum of federal income taxes provincial and territorial income taxes less abatement where applicable. Provincial and territorial income taxes include health care premiums in certain jurisdictions. Abatement reduces the federal income taxes payable by persons residing in Quebec or in certain self-governing Yukon First Nation settlement lands.

Market income - The sum of employment income (wages salaries and commissions net self-employment income from farm or non-farm unincorporated business and/or professional practice) investment income private retirement income (retirement pensions superannuation and annuities including those from registered retirement savings plans [RRSPs] and registered retirement income funds [RRIFs]) and other money income from market sources during the reference period. It is equivalent to total income minus government transfers. It is also referred to as income before transfers and taxes.

Government transfers - All cash benefits received from federal provincial territorial or municipal governments during the reference period. It includes:

*Old Age Security pension Guaranteed Income Supplement Allowance or Allowance for the Survivor

*retirement disability and survivor benefits from Canada Pension Plan and Québec Pension Plan

*benefits from Employment Insurance and Québec parental insurance plan

*child benefits from federal and provincial programs

*social assistance benefits

*workers' compensation benefits

*Canada workers benefit (CWB)

*Goods and services tax credit and harmonized sales tax credit

*other income from government sources.

For the 2021 Census this includes various benefits from new and existing federal provincial and territorial government income programs intended to provide financial support to individuals affected by the COVID-19 pandemic and the public health measures implemented to minimize the spread of the virus.

Employment income :

All income received as wages salaries and commissions from paid employment and net self-employment income from farm or non-farm unincorporated business and/or professional practice during the reference period.

For the 2021 Census the reference period for income data is the calendar year 2020 unless otherwise specified.

Median income - The median income of a specified group is the amount that divides the income distribution of that group into two halves i.e. the incomes of half of the units in that group are below the median while those of the other half are above the median. Median incomes of individuals are calculated for those with income (positive or negative).

[11] Total income - The sum of certain incomes (in cash and in some circumstances in kind) of the statistical unit during a specified reference period. The components used to calculate total income vary between:

*statistical units of social statistical programs such as persons private households census families and economic families

*statistical units of business statistical programs such as enterprises companies establishments and locations

*statistical units of farm statistical programs such as farm operator and farm family.

In the context of persons total income refers to receipts from certain sources before income taxes and deductions during a specified reference period.

In the context of census families total income refers to receipts from certain sources of all of its family members before income taxes and deductions during a specified reference period.

In the context of economic families total income refers to receipts from certain sources of all of its family members before income taxes and deductions during a specified reference period.

In the context of households total income refers to receipts from certain sources of all household members before income taxes and deductions during a specified reference period.

The monetary receipts included are those that tend to be of a regular and recurring nature. Receipts that are included as income are:

*employment income from wages salaries tips commissions and net income from self-employment (for both unincorporated farm and non-farm activities)

*income from investment sources such as dividends and interest on bonds accounts guaranteed investment certificates (GICs) and mutual funds

*income from employer and personal pension sources such as private pensions and payments from annuities and registered retirement income funds (RRIFs)

*other regular cash income such as child support payments received spousal support payments (alimony) received and scholarships

* income from government sources such as social assistance child benefits Employment Insurance benefits Old Age Security benefits COVID-19 benefits and Canada Pension Plan and Québec Pension Plan benefits and disability income.

Receipts excluded from this income definition are:

*one-time receipts such as lottery winnings gambling winnings cash inheritances lump-sum insurance settlements and tax-free savings account (TFSA) or registered retirement savings plan (RRSP) withdrawals

*capital gains because they are not by their nature regular and recurring. It is further assumed that they are more relevant to the concept of wealth than the concept of income

*employers' contributions to registered pension plans Canada Pension Plan Québec Pension Plan and Employment Insurance

*voluntary inter-household transfers imputed rent goods and services produced for barter and goods produced for own consumption.

After-tax income - Total income less income taxes of the statistical unit during a specified reference period.

Income taxes refers to the sum of federal income taxes provincial and territorial income taxes less abatement where applicable. Provincial and territorial income taxes include health care premiums in certain jurisdictions. Abatement reduces the federal income taxes payable by persons residing in Quebec or in certain self-governing Yukon First Nation settlement lands.

Market income - The sum of employment income (wages salaries and commissions net self-employment income from farm or non-farm unincorporated business and/or professional practice) investment income private retirement income (retirement pensions superannuation and annuities including those from registered retirement savings plans [RRSPs] and registered retirement income funds [RRIFs]) and other money income from market sources during the reference period. It is equivalent to total income minus government transfers. It is also referred to as income before transfers and taxes.

Government transfers - All cash benefits received from federal provincial territorial or municipal governments during the reference period. It includes:

- *Old Age Security pension Guaranteed Income Supplement Allowance or Allowance for the Survivor

- *retirement disability and survivor benefits from Canada Pension Plan and Québec Pension Plan

- *benefits from Employment Insurance and Québec parental insurance plan

- *child benefits from federal and provincial programs

- *social assistance benefits

- *workers' compensation benefits

- *Canada workers benefit (CWB)

- *Goods and services tax credit and harmonized sales tax credit

- *other income from government sources.

For the 2021 Census this includes various benefits from new and existing federal provincial and territorial government income programs intended to provide financial support to individuals affected by the COVID-19 pandemic and the public health measures implemented to minimize the spread of the virus.

Employment income :

All income received as wages salaries and commissions from paid employment and net self-employment income from farm or non-farm unincorporated business and/or professional practice during the reference period.

For the 2021 Census the reference period for income data is the calendar year 2020 unless otherwise specified.

Average income of a specified group is calculated by dividing the aggregate income of that group by the number of units in that group.

Average incomes of individuals are calculated for those with income (positive or negative).

[12] Employment income - All income received as wages salaries and commissions from paid employment and net self-employment income from farm or non-farm unincorporated business and/or professional practice during the reference period. For the 2021 Census the reference period for income data is the calendar year 2020 unless otherwise specified.

[13] Full-year full-time workers - Persons aged 15 years and over who worked mostly full time (30 hours or more per week) and full year (49 weeks and over per year) in 2020. For more information see variable work activity in 2020 Dictionary Census of Population 2021.

[14] Median income - The median income of a specified group is the amount that divides the income distribution of that group into two halves i.e. the incomes of half of the units in that group are below the median while those of the other half are above the median. Median incomes of individuals are calculated for those with income (positive or negative).

[15] Average income - Average income of a specified group is calculated by dividing the aggregate income of that group by the number of units in that group. Average incomes of individuals are calculated for those with income (positive or negative).

[16] Part year or part time workers - Persons aged 15 years and over who worked mostly part time (less than 30 hours per week) or 48 weeks or less during 2020. For more information see variable work activity in 2020 Dictionary Census of Population 2021.

[17] Composition of total income - The composition of the total income of a population group or a geographic area refers to the relative share of each income source or group of sources expressed as a percentage of the aggregate total income of that group or area.

For the 2021 Census the reference period for income data is the calendar year 2020 unless otherwise specified.

[18] Market income - The sum of employment income (wages salaries and commissions net self-employment income from farm or non-farm unincorporated business and/or professional practice) investment income private retirement income (retirement pensions superannuation and annuities including those from registered retirement savings plans [RRSPs] and registered retirement income funds [RRIFs]) and other money income from market sources during the reference period. It is equivalent to total income minus government transfers. It is also referred to as income before transfers and taxes.

For the 2021 Census the reference period for income data is the calendar year 2020 unless otherwise specified.

[19] Employment income - All income received as wages salaries and commissions from paid employment and net self-employment income from farm or non-farm unincorporated business and/or professional practice during the reference period.

For the 2021 Census the reference period for income data is the calendar year 2020 unless otherwise specified.

[20] Government transfers - All cash benefits received from federal provincial territorial or municipal governments during the reference period. It includes:

- *Old Age Security pension Guaranteed Income Supplement Allowance or Allowance for the Survivor

- *retirement disability and survivor benefits from Canada Pension Plan and Québec Pension Plan

- *benefits from Employment Insurance and Québec parental insurance plan

- *child benefits from federal and provincial programs

- *social assistance benefits

- *workers' compensation benefits

- *Canada workers benefit (CWB)

- *Goods and services tax credit and harmonized sales tax credit

- *other income from government sources.

For the 2021 Census this includes various benefits from new and existing federal provincial and territorial government income programs intended to provide financial support to individuals affected by the COVID-19 pandemic and the public health measures implemented to minimize the spread of the virus.

For the 2021 Census the reference period for income data is the calendar year 2020 unless otherwise specified.

[21] Total income - The sum of certain incomes (in cash and in some circumstances in kind) of the statistical unit during a specified reference period. The components used to calculate total income vary between:

*statistical units of social statistical programs such as persons private households census families and economic families

*statistical units of business statistical programs such as enterprises companies establishments and locations

*statistical units of farm statistical programs such as farm operator and farm family.

In the context of persons total income refers to receipts from certain sources before income taxes and deductions during a specified reference period.

In the context of census families total income refers to receipts from certain sources of all of its family members before income taxes and deductions during a specified reference period.

In the context of economic families total income refers to receipts from certain sources of all of its family members before income taxes and deductions during a specified reference period.

In the context of households total income refers to receipts from certain sources of all household members before income taxes and deductions during a specified reference period.

The monetary receipts included are those that tend to be of a regular and recurring nature. Receipts that are included as income are:

*employment income from wages salaries tips commissions and net income from self-employment (for both unincorporated farm and non-farm activities)

*income from investment sources such as dividends and interest on bonds accounts guaranteed investment certificates (GICs) and mutual funds

*income from employer and personal pension sources such as private pensions and payments from annuities and registered retirement income funds (RRIFs)

*other regular cash income such as child support payments received spousal support payments (alimony) received and scholarships

*income from government sources such as social assistance child benefits Employment Insurance benefits Old Age Security benefits COVID-19 benefits and Canada Pension Plan and Québec Pension Plan benefits and disability income.

Receipts excluded from this income definition are:

*one-time receipts such as lottery winnings gambling winnings cash inheritances lump-sum insurance settlements and tax-free savings account (TFSA) or registered retirement savings plan (RRSP) withdrawals

*capital gains because they are not by their nature regular and recurring. It is further assumed that they are more relevant to the concept of wealth than the concept of income

*employers' contributions to registered pension plans Canada Pension Plan Québec Pension Plan and Employment Insurance

*voluntary inter-household transfers imputed rent goods and services produced for barter and goods produced for own consumption.

For the 2021 Census the reference period for income data is the calendar year 2020 unless otherwise specified.

[22] After-tax income - After-tax income refers to total income less income taxes of the statistical unit during a specified reference period. Income taxes refers to the sum of federal income taxes provincial and territorial income taxes less abatement where applicable. Provincial and territorial income taxes include health care premiums in certain jurisdictions. Abatement reduces the federal income taxes payable by persons residing in Quebec or in certain self-governing Yukon First Nation settlement lands.

For the 2021 Census the reference period for income data is the calendar year 2020 unless otherwise specified.

[23] Total income - The sum of certain incomes (in cash and in some circumstances in kind) of the statistical unit during a specified reference period. The components used to calculate total income vary between:

*statistical units of social statistical programs such as persons private households census families and economic families

*statistical units of business statistical programs such as enterprises companies establishments and locations

*statistical units of farm statistical programs such as farm operator and farm family.

In the context of persons total income refers to receipts from certain sources before income taxes and deductions during a specified reference period.

In the context of census families total income refers to receipts from certain sources of all of its family members before income taxes and deductions during a specified reference period.

In the context of economic families total income refers to receipts from certain sources of all of its family members before income taxes and deductions during a specified reference period.

In the context of households total income refers to receipts from certain sources of all household members before income taxes and deductions during a specified reference period.

The monetary receipts included are those that tend to be of a regular and recurring nature. Receipts that are included as income are:

*employment income from wages salaries tips commissions and net income from self-employment (for both unincorporated farm and non-farm activities)

*income from investment sources such as dividends and interest on bonds accounts guaranteed investment certificates (GICs) and mutual funds

*income from employer and personal pension sources such as private pensions and payments from annuities and registered retirement income funds (RRIFs)

*other regular cash income such as child support payments received spousal support payments (alimony) received and scholarships

*income from government sources such as social assistance child benefits Employment Insurance benefits Old Age Security benefits Canada Pension Plan and Québec Pension Plan benefits and disability income.

Receipts excluded from this income definition are:

*one-time receipts such as lottery winnings gambling winnings cash inheritances lump-sum insurance settlements and tax-free savings account (TFSA) or registered retirement savings plan (RRSP) withdrawals

*capital gains because they are not by their nature regular and recurring. It is further assumed that they are more relevant to the concept of wealth than the concept of income

*employers' contributions to registered pension plans Canada Pension Plan Québec Pension Plan and Employment Insurance

*voluntary inter-household transfers imputed rent goods and services produced for barter and goods produced for own consumption.

After-tax income - Total income less income taxes of the statistical unit during a specified reference period.

Income taxes refers to the sum of federal income taxes provincial and territorial income taxes less abatement where applicable. Provincial and territorial income taxes include health care premiums in certain jurisdictions. Abatement reduces the federal income taxes payable by persons residing in Quebec or in certain self-governing Yukon First Nation settlement lands.

Market income - The sum of employment income (wages salaries and commissions net self-employment income from farm or non-farm unincorporated business and/or professional practice) investment income private retirement income (retirement pensions superannuation and annuities including those from registered retirement savings plans [RRSPs] and registered retirement income funds [RRIFs]) and other money income from market sources during the reference period. It is equivalent to total income minus government transfers. It is also referred to as income before transfers and taxes.

Government transfers - All cash benefits received from federal provincial territorial or municipal governments during the reference period. It includes:

- *Old Age Security pension Guaranteed Income Supplement Allowance or Allowance for the Survivor

- *retirement disability and survivor benefits from Canada Pension Plan and Québec Pension Plan

- *benefits from Employment Insurance and Québec parental insurance plan

- *child benefits from federal and provincial programs

- *social assistance benefits

- *workers' compensation benefits

- *Canada workers benefit (CWB)

- *Goods and services tax credit and harmonized sales tax credit

- *other income from government sources.

Employment income :

All income received as wages salaries and commissions from paid employment and net self-employment income from farm or non-farm unincorporated business and/or professional practice during the reference period.

Employment Insurance (EI) benefits - All Employment Insurance (EI) benefits received during the reference period before income tax deductions. It includes benefits for unemployment sickness maternity paternity adoption compassionate care work sharing retraining and benefits to self-employed fishers received under the federal EI Program or the Québec parental insurance plan.

The reference period for these variables is calendar year 2019. These variables are intended for comparison with their 2020 equivalent and other 2019 income variables. Income for 2019 is presented in 2020 constant dollars.

Median income - The median income of a specified group is the amount that divides the income distribution of that group into two halves i.e. the incomes of half of the units in that group are below the median while those of the other half are above the median. Median incomes of individuals are calculated for those with income (positive or negative).

[24] Total income - The sum of certain incomes (in cash and in some circumstances in kind) of the statistical unit during a specified reference period. The components used to calculate total income vary between:

- *statistical units of social statistical programs such as persons private households census families and economic families

- *statistical units of business statistical programs such as enterprises companies establishments and locations

- *statistical units of farm statistical programs such as farm operator and farm family.

In the context of persons total income refers to receipts from certain sources before income taxes and deductions during a specified reference period.

In the context of census families total income refers to receipts from certain sources of all of its family members before income taxes and deductions during a specified reference period.

In the context of economic families total income refers to receipts from certain sources of all of its family members before income taxes and deductions during a specified reference period.

In the context of households total income refers to receipts from certain sources of all household members before income taxes and deductions during a specified reference period.

The monetary receipts included are those that tend to be of a regular and recurring nature. Receipts that are included as income are:

- *employment income from wages salaries tips commissions and net income from self-employment (for both unincorporated farm and non-farm activities)

- *income from investment sources such as dividends and interest on bonds accounts guaranteed investment certificates (GICs) and mutual funds

- *income from employer and personal pension sources such as private pensions and payments from annuities and registered retirement income funds (RRIFs)

- *other regular cash income such as child support payments received spousal support payments (alimony) received and scholarships

- *income from government sources such as social assistance child benefits Employment Insurance benefits Old Age Security benefits Canada Pension Plan and Québec Pension Plan benefits and disability income.

Receipts excluded from this income definition are:

- *one-time receipts such as lottery winnings gambling winnings cash inheritances lump-sum insurance settlements and tax-free savings account (TFSA) or registered retirement savings plan (RRSP) withdrawals

- *capital gains because they are not by their nature regular and recurring. It is further assumed that they are more relevant to the concept of wealth than the concept of income

- *employers' contributions to registered pension plans Canada Pension Plan Québec Pension Plan and Employment Insurance

- *voluntary inter-household transfers imputed rent goods and services produced for barter and goods produced for own consumption.

After-tax income - Total income less income taxes of the statistical unit during a specified reference period.

Income taxes refers to the sum of federal income taxes provincial and territorial income taxes less abatement where applicable. Provincial and territorial income taxes include health care premiums in certain jurisdictions. Abatement reduces the federal income taxes payable by persons residing in Quebec or in certain self-governing Yukon First Nation settlement lands.

Market income - The sum of employment income (wages salaries and commissions net self-employment income from farm or non-farm unincorporated business and/or professional practice) investment income private retirement income (retirement pensions superannuation and annuities including those from registered retirement savings plans [RRSPs] and registered retirement income funds [RRIFs]) and other money income from market sources during the reference period. It is equivalent to total income minus government transfers. It is also referred to as income before transfers and taxes.

Government transfers - All cash benefits received from federal provincial territorial or municipal governments during the reference period. It includes:

- *Old Age Security pension Guaranteed Income Supplement Allowance or Allowance for the Survivor

- *retirement disability and survivor benefits from Canada Pension Plan and Québec Pension Plan

- *benefits from Employment Insurance and Québec parental insurance plan

- *child benefits from federal and provincial programs

- *social assistance benefits

- workers' compensation benefits

*Canada workers benefit (CWB)

*Goods and services tax credit and harmonized sales tax credit

*other income from government sources.

Employment income - All income received as wages salaries and commissions from paid employment and net self-employment income from farm or non-farm unincorporated business and/or professional practice during the reference period.

Employment Insurance (EI) benefits - All Employment Insurance (EI) benefits received during the reference period before income tax deductions. It includes benefits for unemployment sickness maternity paternity adoption compassionate care work sharing retraining and benefits to self-employed fishers received under the federal EI Program or the Québec parental insurance plan.

The reference period for these variables is calendar year 2019. These variables are intended for comparison with their 2020 equivalent and other 2019 income variables. Income for 2019 is presented in 2020 constant dollars.

Average income of a specified group is calculated by dividing the aggregate income of that group by the number of units in that group.

Average incomes of individuals are calculated for those with income (positive or negative).

[25] Employment income - All income received as wages salaries and commissions from paid employment and net self-employment income from farm or non-farm unincorporated business and/or professional practice during the reference period. The reference period for this variable is calendar year 2019. The variable is intended for comparison with its 2020 equivalent and other 2019 income variables.

Income for 2019 is presented in 2020 constant dollars.

[26] Total income - The sum of certain incomes (in cash and in some circumstances in kind) of the statistical unit during a specified reference period. The components used to calculate total income vary between:

*statistical units of social statistical programs such as persons private households census families and economic families

*statistical units of business statistical programs such as enterprises companies establishments and locations

*statistical units of farm statistical programs such as farm operator and farm family.

In the context of persons total income refers to receipts from certain sources before income taxes and deductions during a specified reference period.

In the context of census families total income refers to receipts from certain sources of all of its family members before income taxes and deductions during a specified reference period.

In the context of economic families total income refers to receipts from certain sources of all of its family members before income taxes and deductions during a specified reference period.

In the context of households total income refers to receipts from certain sources of all household members before income taxes and deductions during a specified reference period.

The monetary receipts included are those that tend to be of a regular and recurring nature. Receipts that are included as income are:

*employment income from wages salaries tips commissions and net income from self-employment (for both unincorporated farm and non-farm activities)

*income from investment sources such as dividends and interest on bonds accounts guaranteed investment certificates (GICs) and mutual funds

*income from employer and personal pension sources such as private pensions and payments from annuities and registered retirement income funds (RRIFs)

*other regular cash income such as child support payments received spousal support payments (alimony) received and scholarships

*income from government sources such as social assistance child benefits Employment Insurance benefits Old Age Security benefits COVID-19 benefits and Canada Pension Plan and Québec Pension Plan benefits and disability income.

Receipts excluded from this income definition are:

*one-time receipts such as lottery winnings gambling winnings cash inheritances lump-sum insurance settlements and tax-free savings account (TFSA) or registered retirement savings plan (RRSP) withdrawals

*capital gains because they are not by their nature regular and recurring. It is further assumed that they are more relevant to the concept of wealth than the concept of income

*employers' contributions to registered pension plans Canada Pension Plan Québec Pension Plan and Employment Insurance

*voluntary inter-household transfers imputed rent goods and services produced for barter and goods produced for own consumption.

After-tax income - Total income less income taxes of the statistical unit during a specified reference period.

Income taxes refers to the sum of federal income taxes provincial and territorial income taxes less abatement where applicable. Provincial and territorial income taxes include health care premiums in certain jurisdictions. Abatement reduces the federal income taxes payable by persons residing in Quebec or in certain self-governing Yukon First Nation settlement lands.

For the 2021 Census the reference period for income data is the calendar year 2020 unless otherwise specified.

Median income - The median income of a specified group is the amount that divides the income distribution of that group into two halves i.e. the incomes of half of the units in that group are below the median while those of the other half are above the median. Median incomes of households are calculated for all units whether or not they had income.

[27] Total income - The sum of certain incomes (in cash and in some circumstances in kind) of the statistical unit during a specified reference period. The components used to calculate total income vary between:

*statistical units of social statistical programs such as persons private households census families and economic families

*statistical units of business statistical programs such as enterprises companies establishments and locations

*statistical units of farm statistical programs such as farm operator and farm family.

In the context of persons total income refers to receipts from certain sources before income taxes and deductions during a specified reference period.

In the context of census families total income refers to receipts from certain sources of all of its family members before income taxes and deductions during a specified reference period.

In the context of economic families total income refers to receipts from certain sources of all of its family members before income taxes and deductions during a specified reference period.

In the context of households total income refers to receipts from certain sources of all household members before income taxes and deductions during a specified reference period.

The monetary receipts included are those that tend to be of a regular and recurring nature. Receipts that are included as income are:

*employment income from wages salaries tips commissions and net income from self-employment (for both unincorporated farm and non-farm activities)

*income from investment sources such as dividends and interest on bonds accounts guaranteed investment certificates (GICs) and mutual funds

*income from employer and personal pension sources such as private pensions and payments from annuities and registered retirement income funds (RRIFs)

*other regular cash income such as child support payments received spousal support payments (alimony) received and scholarships

*income from government sources such as social assistance child benefits Employment Insurance benefits Old Age Security benefits COVID-19 benefits and Canada Pension Plan and Québec Pension Plan benefits and disability income.

Receipts excluded from this income definition are:

*one-time receipts such as lottery winnings gambling winnings cash inheritances lump-sum insurance settlements and tax-free savings account (TFSA) or registered retirement savings plan (RRSP) withdrawals

*capital gains because they are not by their nature regular and recurring. It is further assumed that they are more relevant to the concept of wealth than the concept of income

*employers' contributions to registered pension plans Canada Pension Plan Québec Pension Plan and Employment Insurance

*voluntary inter-household transfers imputed rent goods and services produced for barter and goods produced for own consumption.

After-tax income - Total income less income taxes of the statistical unit during a specified reference period.

Income taxes refers to the sum of federal income taxes provincial and territorial income taxes less abatement where applicable. Provincial and territorial income taxes include health care premiums in certain jurisdictions. Abatement reduces the federal income taxes payable by persons residing in Quebec or in certain self-governing Yukon First Nation settlement lands.

For the 2021 Census the reference period for income data is the calendar year 2020 unless otherwise specified.

Average income - Average income of a specified group is calculated by dividing the aggregate income of that group by the number of units in that group. Average incomes of households are calculated for all units whether or not they had income.

[28] Total income - The sum of certain incomes (in cash and in some circumstances in kind) of the statistical unit during a specified reference period. The components used to calculate total income vary between:

*statistical units of social statistical programs such as persons private households census families and economic families

*statistical units of business statistical programs such as enterprises companies establishments and locations

*statistical units of farm statistical programs such as farm operator and farm family.

In the context of persons total income refers to receipts from certain sources before income taxes and deductions during a specified reference period.

In the context of census families total income refers to receipts from certain sources of all of its family members before income taxes and deductions during a specified reference period.

In the context of economic families total income refers to receipts from certain sources of all of its family members before income taxes and deductions during a specified reference period.

In the context of households total income refers to receipts from certain sources of all household members before income taxes and deductions during a specified reference period.

The monetary receipts included are those that tend to be of a regular and recurring nature. Receipts that are included as income are:

*employment income from wages salaries tips commissions and net income from self-employment (for both unincorporated farm and non-farm activities)

*income from investment sources such as dividends and interest on bonds accounts guaranteed investment certificates (GICs) and mutual funds

*income from employer and personal pension sources such as private pensions and payments from annuities and registered retirement income funds (RRIFs)

*other regular cash income such as child support payments received spousal support payments (alimony) received and scholarships

*income from government sources such as social assistance child benefits Employment Insurance benefits Old Age Security benefits COVID-19 benefits and Canada Pension Plan and Québec Pension Plan benefits and disability income.

Receipts excluded from this income definition are:

*one-time receipts such as lottery winnings gambling winnings cash inheritances lump-sum insurance settlements and tax-free savings account (TFSA) or registered retirement savings plan (RRSP) withdrawals

*capital gains because they are not by their nature regular and recurring. It is further assumed that they are more relevant to the concept of wealth than the concept of income

*employers' contributions to registered pension plans Canada Pension Plan Québec Pension Plan and Employment Insurance

*voluntary inter-household transfers imputed rent goods and services produced for barter and goods produced for own consumption.

After-tax income - Total income less income taxes of the statistical unit during a specified reference period.

Income taxes refers to the sum of federal income taxes provincial and territorial income taxes less abatement where applicable. Provincial and territorial income taxes include health care premiums in certain jurisdictions. Abatement reduces the federal income taxes payable by persons residing in Quebec or in certain self-governing Yukon First Nation settlement lands.

For the 2021 Census the reference period for income data is the calendar year 2020 unless otherwise specified.

Median income - The median income of a specified group is the amount that divides the income distribution of that group into two halves i.e. the incomes of half of the units in that group are below the median while those of the other half are above the median. Median incomes of families are calculated for all units whether or not they had income.

Economic family structure - The combination of relatives that comprise a family. Classification on this variable considers the presence or absence of: married spouses or common-law partners

[29] Total income - The sum of certain incomes (in cash and in some circumstances in kind) of the statistical unit during a specified reference period. The components used to calculate total income vary between:

*statistical units of social statistical programs such as persons private households census families and economic families

*statistical units of business statistical programs such as enterprises companies establishments and locations

*statistical units of farm statistical programs such as farm operator and farm family.

In the context of persons total income refers to receipts from certain sources before income taxes and deductions during a specified reference period.

In the context of census families total income refers to receipts from certain sources of all of its family members before income taxes and deductions during a specified reference period.

In the context of economic families total income refers to receipts from certain sources of all of its family members before income taxes and deductions during a specified reference period.

In the context of households total income refers to receipts from certain sources of all household members before income taxes and deductions during a specified reference period.

The monetary receipts included are those that tend to be of a regular and recurring nature. Receipts that are included as income are:

*employment income from wages salaries tips commissions and net income from self-employment (for both unincorporated farm and non-farm activities)
*income from investment sources such as dividends and interest on bonds accounts guaranteed investment certificates (GICs) and mutual funds
*income from employer and personal pension sources such as private pensions and payments from annuities and registered retirement income funds (RRIFs)
*other regular cash income such as child support payments received spousal support payments (alimony) received and scholarships
*income from government sources such as social assistance child benefits Employment Insurance benefits Old Age Security benefits COVID-19 benefits and Canada Pension Plan and Québec Pension Plan benefits and disability income.

Receipts excluded from this income definition are:

*one-time receipts such as lottery winnings gambling winnings cash inheritances lump-sum insurance settlements and tax-free savings account (TFSA) or registered retirement savings plan (RRSP) withdrawals
*capital gains because they are not by their nature regular and recurring. It is further assumed that they are more relevant to the concept of wealth than the concept of income
*employers' contributions to registered pension plans Canada Pension Plan Québec Pension Plan and Employment Insurance
*voluntary inter-household transfers imputed rent goods and services produced for barter and goods produced for own consumption.

After-tax income - Total income less income taxes of the statistical unit during a specified reference period.

Income taxes refers to the sum of federal income taxes provincial and territorial income taxes less abatement where applicable. Provincial and territorial income taxes include health care premiums in certain jurisdictions. Abatement reduces the federal income taxes payable by persons residing in Quebec or in certain self-governing Yukon First Nation settlement lands.

For the 2021 Census the reference period for income data is the calendar year 2020 unless otherwise specified.

Median income - The median income of a specified group is the amount that divides the income distribution of that group into two halves i.e. the incomes of half of the units in that group are below the median while those of the other half are above the median. Median incomes of persons not in families are calculated for all units whether or not they had income.

[30] Calculation includes persons not in economic families without income (with an income of zero).

[31] Total income - The sum of certain incomes (in cash and in some circumstances in kind) of the statistical unit during a specified reference period. The components used to calculate total income vary between:

*statistical units of social statistical programs such as persons private households census families and economic families
*statistical units of business statistical programs such as enterprises companies establishments and locations
*statistical units of farm statistical programs such as farm operator and farm family.

In the context of persons total income refers to receipts from certain sources before income taxes and deductions during a specified reference period.

In the context of census families total income refers to receipts from certain sources of all of its family members before income taxes and deductions during a specified reference period.

In the context of economic families total income refers to receipts from certain sources of all of its family members before income taxes and deductions during a specified reference period.

In the context of households total income refers to receipts from certain sources of all household members before income taxes and deductions during a specified reference period.

The monetary receipts included are those that tend to be of a regular and recurring nature. Receipts that are included as income are:

*employment income from wages salaries tips commissions and net income from self-employment (for both unincorporated farm and non-farm activities)
*income from investment sources such as dividends and interest on bonds accounts guaranteed investment certificates (GICs) and mutual funds
*income from employer and personal pension sources such as private pensions and payments from annuities and registered retirement income funds (RRIFs)
*other regular cash income such as child support payments received spousal support payments (alimony) received and scholarships

Income from government sources such as social assistance child benefits Employment Insurance benefits Old Age Security benefits COVID-19 benefits and Canada Pension Plan and Québec Pension Plan benefits and disability income.

Receipts excluded from this income definition are:

*one-time receipts such as lottery winnings gambling winnings cash inheritances lump-sum insurance settlements and tax-free savings account (TFSA) or registered retirement savings plan (RRSP) withdrawals
*capital gains because they are not by their nature regular and recurring. It is further assumed that they are more relevant to the concept of wealth than the concept of income
*employers' contributions to registered pension plans Canada Pension Plan Québec Pension Plan and Employment Insurance
*voluntary inter-household transfers imputed rent goods and services produced for barter and goods produced for own consumption.

After-tax income - Total income less income taxes of the statistical unit during a specified reference period.

Income taxes refers to the sum of federal income taxes provincial and territorial income taxes less abatement where applicable. Provincial and territorial income taxes include health care premiums in certain jurisdictions. Abatement reduces the federal income taxes payable by persons residing in Quebec or in certain self-governing Yukon First Nation settlement lands.

For the 2021 Census the reference period for income data is the calendar year 2020 unless otherwise specified.

Average income - The average income of a specified group is calculated by dividing the aggregate income of that group by the number of units in that group. Average incomes of families are calculated for all units whether or not they had income.

Economic family structure - The combination of relatives that comprise a family. Classification on this variable considers the presence or absence of: married spouses or common-law partners

[32] Total income - The sum of certain incomes (in cash and in some circumstances in kind) of the statistical unit during a specified reference period. The components used to calculate total income vary between:

*statistical units of social statistical programs such as persons private households census families and economic families
*statistical units of business statistical programs such as enterprises companies establishments and locations
*statistical units of farm statistical programs such as farm operator and farm family.

In the context of persons total income refers to receipts from certain sources before income taxes and deductions during a specified reference period.

In the context of census families total income refers to receipts from certain sources of all of its family members before income taxes and deductions during a specified reference period.

In the context of economic families total income refers to receipts from certain sources of all of its family members before income taxes and deductions during a specified reference period.

In the context of households total income refers to receipts from certain sources of all household members before income taxes and deductions during a specified reference period.

The monetary receipts included are those that tend to be of a regular and recurring nature. Receipts that are included as income are:

*employment income from wages salaries tips commissions and net income from self-employment (for both unincorporated farm and non-farm activities)

*income from investment sources such as dividends and interest on bonds accounts guaranteed investment certificates (GICs) and mutual funds

*income from employer and personal pension sources such as private pensions and payments from annuities and registered retirement income funds (RRIFs)

*other regular cash income such as child support payments received spousal support payments (alimony) received and scholarships

*income from government sources such as social assistance child benefits Employment Insurance benefits Old Age Security benefits COVID-19 benefits and Canada Pension Plan and Québec Pension Plan benefits and disability income.

Receipts excluded from this income definition are:

*one-time receipts such as lottery winnings gambling winnings cash inheritances lump-sum insurance settlements and tax-free savings account (TFSA) or registered retirement savings plan (RRSP) withdrawals

*capital gains because they are not by their nature regular and recurring. It is further assumed that they are more relevant to the concept of wealth than the concept of income

*employers' contributions to registered pension plans Canada Pension Plan Québec Pension Plan and Employment Insurance

*voluntary inter-household transfers imputed rent goods and services produced for barter and goods produced for own consumption.

After-tax income - Total income less income taxes of the statistical unit during a specified reference period.

Income taxes refers to the sum of federal income taxes provincial and territorial income taxes less abatement where applicable. Provincial and territorial income taxes include health care premiums in certain jurisdictions. Abatement reduces the federal income taxes payable by persons residing in Quebec or in certain self-governing Yukon First Nation settlement lands.

For the 2021 Census the reference period for income data is the calendar year 2020 unless otherwise specified.

Average income - Average income of a specified group is calculated by dividing the aggregate income of that group by the number of units in that group. Average incomes of persons not in families are calculated for all units whether or not they had income.

[33] Low-income status - The income situation of the statistical unit in relation to a specific low-income line in a reference year.

Statistical units with income that is below the low-income line are considered to be in low income.

For the 2021 Census the reference period for income data is the calendar year 2020 unless otherwise specified.

Prior to the 2021 Census the LIM thresholds and the LIM low income statistics were derived and reported for the population residing outside of the territories and off reserve only. It was based on the consideration that the income prices and expenditure patterns could be quite different in the territories and on reserve and thus could make the interpretation of the LIM low-income statistics difficult.

Since the 2016 Census there were research studies that analyzed the feasibility of defining LIM thresholds that include the population living in the territories and on reserve and examined the aspects that should be considered when interpreting low-income statistics based on this definition. With the guidance and support of such research the 2021 Census expanded the coverage of the LIM concept to all regions in Canada making it the only low-income concept that is applicable to the population living in the territories and on reserve.

Low-income measure after tax (LIM-AT) - The Low-income measure after tax refers to a fixed percentage (50%) of median-adjusted after-tax income of private households. The household after-tax income is adjusted by an equivalence scale to take economies of scale into account. This adjustment for different household sizes reflects the fact that a household's needs increase but at a decreasing rate as the number of members increases.

Using data from the 2021 Census of Population the line applicable to a household is defined as half the Canadian median of the adjusted household after-tax income multiplied by the square root of household size. The median is determined based on all persons in private households where low-income concepts are applicable. Thresholds for specific household sizes are presented in Table 2.4 Low-income measures thresholds (LIM-AT and LIM-BT) for private households of Canada 2020 Dictionary Census of Population 2021.

When the unadjusted after-tax income of household pertaining to a person falls below the threshold applicable to the person based on household size the person is considered to be in low income according to LIM-AT. Since the LIM-AT threshold and household income are unique within each household low-income status based on LIM-AT can also be reported for households.

Low-income cut-offs after tax (LICO-AT) - The Low-income cut-offs after tax refers to an income threshold defined using 1992 expenditure data below which economic families or persons not in economic families would likely have devoted a larger share of their after-tax income than average to the necessities of food shelter and clothing. More specifically the thresholds represented income levels at which these families or persons were expected to spend 20 percentage points or more of their after-tax income than average on food shelter and clothing. These thresholds have been adjusted to current dollars using the all-items Consumer Price Index (CPI).

The LICO-AT has 35 cut-offs varying by seven family sizes and five different sizes of area of residence to account for economies of scale and potential differences in cost of living in communities of different sizes. These thresholds are presented in Table 2.5 Low-income cut-offs after tax (LICO-AT - 1992 base) for economic families and persons not in economic families 2020 Dictionary Census of Population 2021.

When the after-tax income of an economic family member or a person not in an economic family falls below the threshold applicable to the person the person is considered to be in low income according to LICO-AT. Since the LICO-AT threshold and family income are unique within each economic family low-income status based on LICO-AT can also be reported for economic families.

Prevalence of low income - The proportion or percentage of units whose income falls below a specified low-income line.

[34] Economic family after-tax income decile group - The economic family income decile group provides a rough ranking of the economic situation of a person based on his or her relative position in the Canadian distribution of the adjusted after-tax income of economic families for all persons in private households.

Using data from the 2021 Census of Population the population in private households is sorted according to its adjusted after-tax family income and then divided into 10 equal groups each containing 10% of the population. The decile cut-points are the levels of adjusted after-tax family income that define the 10 groups.

For the 2021 Census the reference period for income data is the calendar year 2020 unless otherwise specified.

[35] The Gini coefficient or Gini index is a measure of inequality that indicates how equally income is distributed for a given population. It measures how much an income distribution deviates from perfect equality. Values of the Gini coefficient can range from 0 to 1. A value of 0 indicates that income is equally divided among the population with all units receiving exactly the same amount of income. At the opposite extreme a Gini coefficient of 1 denotes a perfectly unequal distribution where one unit has all of the income in the economy.

For the census Gini coefficients are calculated for three types of adjusted household income—market income, total income and after tax income. Adjusted income is computed by dividing the household income by a factor equal to the square root of the household size (known as the equivalence scale). This adjustment for different household sizes takes into account economies of scale. It reflects the fact that the needs of a household increase but at a decreasing rate as the number of members increases.

The P90/P10 ratio is a measure of inequality. It is the ratio of the 90th and the 10th percentile of the adjusted household after-tax income. The 90th percentile means 90% of the population has income that falls below this threshold. The 10th percentile means 10% of the population has income that falls below this threshold.

[36] Knowledge of official languages†refers to whether the person can conduct a conversation in English only, French only, in both or in neither language. For a child who has not yet learned to speak, this includes languages that the child is learning to speak at home.

For more information on language variables, including information on their classifications, the questions from which they are derived, data quality and their comparability with other sources of data, please refer to the Languages Reference Guide, Census of Population, 2021.

[37] First official language spoken†refers to the first official language (English or French) spoken by the person.

For more information on language variables, including information on their classifications, the questions from which they are derived, data quality and their comparability with other sources of data, please refer to the Languages Reference Guide, Census of Population, 2021.

[38] Mother tongue refers to the first language learned at home in childhood and still understood by the person at the time the data was collected. If the person no longer understands the first language learned, the mother tongue is the second language learned. For a person who learned more than one language at the same time in early childhood, the mother tongue is the language this person spoke most often at home before starting school. The person has more than one mother tongue only if they learned these languages at the same time and still understands them. For a child who has not yet learned to speak, the mother tongue is the language spoken most often to this child at home. A child who has not yet learned to speak has more than one mother tongue only if these languages are spoken to them equally often so that the child learns these languages at the same time.

n.i.e. = not included elsewhere

n.o.s. = not otherwise specified

For more information on language variables, including information on their classifications, the questions from which they are derived, data quality and their comparability with other sources of data, please refer to the Languages Reference Guide, Census of Population, 2021.

[39] Users should be aware that estimates associated with Indigenous languages are more affected than most by the incomplete enumeration of certain reserves and settlements in the Census of Population.

[40] All languages spoken at home†refers to all languages that the person speaks at home on a regular basis at the time of data collection. n.i.e. = not included elsewhere

n.o.s. = not otherwise specified

For more information on language variables, including information on their classifications, the questions from which they are derived, data quality and their comparability with other sources of data, please refer to the Languages Reference Guide, Census of Population, 2021.

[41] Language spoken most often at home refers to the language the person speaks most often at home at the time of data collection. A person can report more than one language as "spoken most often at home" if the languages are spoken equally often.

For a person who lives alone, the language spoken most often at home is the language in which they feel most comfortable. For a child who has not yet learned to speak, this is the language spoken most often to the child at home. Where more than one language is spoken to the child, the language spoken most often at home is the language spoken most often.

If more than one language is spoken equally often to the child, then these languages are included here.

n.i.e. = not included elsewhere

n.o.s. = not otherwise specified

For more information on language variables, including information on their classifications, the questions from which they are derived, data quality and their comparability with other sources of data, please refer to the Languages Reference Guide, Census of Population, 2021.

[42] Other language(s) spoken regularly at home†refers to the language(s) if any that the person speaks at home on a regular basis at the time of data collection, other than the language(s) they speak most often at home.

Comparisons to previous Census data is not recommended for the 'Other languages spoken regularly at home' variable.

For more information on language variables, including information on their classifications, the questions from which they are derived, data quality and their comparability with other sources of data, please refer to the Languages Reference Guide, Census of Population, 2021.

[43] Knowledge of official languages†refers to whether the person can conduct a conversation in English only, French only, in both or in neither language. For a child who has not yet learned to speak, this includes languages that the child is learning to speak at home.

Knowledge of non-official languages†refers to whether the person can conduct a conversation in a language other than English or French. For a child who has not yet learned to speak, this includes languages that the child is learning to speak at home. The number of languages that can be reported may vary between surveys, depending on the objectives of the survey.

n.i.e. = not included elsewhere

n.o.s. = not otherwise specified

For more information on language variables, including information on their classifications, the questions from which they are derived, data quality and their comparability with other sources of data, please refer to the Languages Reference Guide, Census of Population, 2021.

[44] Users should be aware that the estimates associated with this variable are more affected than most by the incomplete enumeration of certain reserves and settlements in the Census of Population.

For more information on Indigenous variables, including information on their classifications, the questions from which they are derived, data quality and their comparability with other sources of data, please refer to the Indigenous Peoples Reference Guide, Census of Population, 2021 and the Indigenous Peoples Technical Report, Census of Population, 2021.

[45] This category includes persons who identify as First Nations (North American Indian) Métis and/or Inuk (Inuit) and/or those who report being Registered or Treaty Indians (that is registered under the Indian Act of Canada) and/or those who report having membership in a First Nation or Indian band.

[46] This category includes persons who identify as only one Indigenous group that is First Nations (North American Indian) Métis or Inuk (Inuit).

[47] This category includes persons who identify as any two or all three of the following: First Nations (North American Indian) Métis and/or Inuk (Inuit).

[48] This category includes persons who do not identify as First Nations (North American Indian) Métis or Inuk (Inuit) but who report having Registered or Treaty Indian status and/or Membership in a First Nation or Indian band.

[49] Registered or Treaty Indian status[†] refers to whether or not a person is a Registered or Treaty Indian. Registered Indians are persons who are registered under the Indian Act of Canada. Treaty Indians are persons who belong to a First Nation or Indian band that signed a treaty with the Crown. Registered or Treaty Indians are sometimes also called Status Indians.

[50] Tenure refers to whether the household owns or rents their private dwelling. The private dwelling may be situated on rented or leased land or be part of a condominium. A household is considered to own their dwelling if some member of the household owns the dwelling even if it is not fully paid for for example if there is a mortgage or some other claim on it. A household is considered to rent their dwelling if no member of the household owns the dwelling. A household is considered to rent that dwelling even if the dwelling is provided without cash rent or at a reduced rent or if the dwelling is part of a cooperative.

For historical and statutory reasons shelter occupancy on Indian reserves or settlements does not lend itself to the usual classification by standard tenure categories. Therefore a special category 'dwelling provided by the local government First Nation or Indian band' has been created for census purposes.

[51] Condominium status refers to whether the private dwelling is part of a condominium development. A condominium is a residential complex in which dwellings are owned individually while land and common elements are held in joint ownership with others.

[52] Bedrooms refers to rooms in a private dwelling that are designed mainly for sleeping purposes even if they are now used for other purposes such as guest rooms and television rooms. Also included are rooms used as bedrooms now even if they were not originally built as bedrooms such as bedrooms in a finished basement. Bedrooms exclude rooms designed for another use during the day such as dining rooms and living rooms even if they may be used for sleeping purposes at night. By definition one-room private dwellings such as bachelor or studio apartments have zero bedrooms.

[53] Rooms refers to enclosed areas within a private dwelling which are finished and suitable for year round living. The number of rooms in a private dwelling includes kitchens bedrooms and finished rooms in the attic or basement. The number of rooms in a private dwelling excludes bathrooms halls vestibules and rooms used solely for business purposes. Partially divided rooms are considered to be separate rooms if they are considered as such by the respondent (e.g. L-shaped dining-room and living-room arrangements).

[54] Number of persons per room - Refers to an indicator of the level of crowding in a private dwelling. It is calculated by dividing the number of persons in the household by the number of rooms in the dwelling.

[55] Housing suitability refers to whether a private household is living in suitable accommodations according to the National Occupancy Standard (NOS)

'Housing suitability' assesses the required number of bedrooms for a household based on the age sex and relationships among household members. An alternative variable 'persons per room' considers all rooms in a private dwelling and the number of household members.

Housing suitability and the National Occupancy Standard (NOS) on which it is based were developed by Canada Mortgage and Housing Corporation (CMHC) through consultations with provincial housing agencies.

[56] Period of construction refers to the period in time during which the building or dwelling was originally constructed.

This refers to the period in which the building was completed not the time of any later remodeling additions or conversions.

For properties having multiple residential structures this refers to the period in which the most recent structure was completed.

[57] Includes data up to May 11 2021.

[58] Dwelling condition refers to whether the dwelling is in need of repairs. This does not include desirable remodelling or additions.

[59] Refers to whether or not a person residing in the household is responsible for paying the rent or the mortgage or the taxes or the electricity or other services or utilities. Where a number of people may contribute to the payments more than one person in the household may be identified as a household maintainer. If no person in the household is identified as making such payments the reference person is identified by default.

[60] Primary household maintainer - The first person in the household identified as someone who pays the rent or the mortgage or the taxes or the electricity or other services or utilities for the dwelling. When more than one member of the household contributes to the payments the first person listed is chosen as the primary household maintainer.

If no person in the household is identified as making any such payments the first person listed is selected by default.

The order of the persons in a household is determined by the order in which they are listed on the questionnaire. Generally an adult is listed first followed if applicable by their spouse or common-law partner and then by their children. The order does not necessarily correspond to the proportion of household payments made by each person.

[61] Shelter-cost-to-income ratio - Refers to the proportion of average total income of household which is spent on shelter costs.

Shelter-cost-to-income ratio is calculated for private households who reported a total household income greater than zero.

Private households located on an agricultural operation that is operated by a member of the household and households who reported a zero or negative total household income are excluded.

The relatively high shelter-costs-to-household income ratios for some households may have resulted from the difference in the reference period for shelter costs and household total income data. The reference period for shelter cost data is 2021 while household total income is reported for the year 2020. As well for some households the 2020 household total income may represent income for only part of a year.

For more information on household total income or shelter costs refer to the Census Dictionary: Total income and Shelter cost.

[62] Acceptable housing refers to whether a household meets each of the three indicator thresholds established by the Canada Mortgage and Housing Corporation for housing adequacy suitability and affordability. Housing indicator thresholds are defined as follows:

*Adequate housing is reported by their residents as not requiring any major repairs.

*Affordable housing has shelter costs equal to less than 30% of total before-tax household income.

*Suitable housing has enough bedrooms for the size and composition of resident households according to the National Occupancy Standard (NOS) conceived by the Canada Mortgage and Housing Corporation and provincial and territorial representatives.

Acceptable housing identifies which thresholds the household falls below if any. Housing that is adequate in condition suitable in size and affordable is considered to be acceptable.

Households below and above the thresholds are based on the indicators for which individual households can be assessed. Farm and on-reserve households whose housing does not meet either or both of the suitability and adequacy thresholds are counted in the total of households below the thresholds. Farm and on-reserve households who live in housing that meets both the suitability and adequacy thresholds are counted in the total of households above the thresholds (even though it is not possible to assess housing affordability for these households). Farm households and on-reserve households cannot be assessed for housing affordability because the concept is not applicable.

Housing affordability is assessed for owner and tenant households with household total income greater than zero in non-farm non-reserve private dwellings.

[63] Core housing need refers to whether a private household's housing falls below at least one of the indicator thresholds for housing adequacy affordability or suitability and would have to spend 30% or more of its total before-tax income to pay the median rent of alternative local housing that is acceptable (attains all three housing indicator thresholds). Housing indicator thresholds are defined as follows: Adequate housing is reported by their residents as not requiring any major repairs. Affordable housing has shelter costs equal to less than 30% of total before-tax household income. Suitable housing has enough bedrooms for the size and composition of resident households according to the National Occupancy Standard (NOS) conceived by the Canada Mortgage and Housing Corporation and provincial and territorial representatives. Only private non-farm non-reserve and owner- or renter-households with incomes greater than zero and shelter-cost-to-income ratios less than 100% are assessed for 'core housing need.' Non-family households with at least one maintainer aged 15 to 29 attending school are considered not to be in 'core housing need' regardless of their housing circumstances. Attending school is considered a transitional phase and low incomes earned by student households are viewed as being a temporary condition.

[64] Presence of mortgage payments refers to whether an owner household makes regular mortgage or loan payments for their dwelling.

[65] Shelter cost refers to the average monthly total of all shelter expenses paid by households.

Shelter costs for owner households include where applicable mortgage payments property taxes and condominium fees along with the costs of electricity heat water and other municipal services. For renter households shelter costs include where applicable the rent and the costs of electricity heat water and other municipal services. For households living in a dwelling provided by the local government First Nation or Indian band shelter costs include where applicable the monthly use or occupancy payment and the costs of electricity heat water and other municipal services.

[66] Value (owner estimated) refers to the dollar amount expected by the owner if the asset were to be sold.

In the context of dwelling it refers to the value of the entire dwelling including the value of the land it is on and of any other structure such as a garage which is on the property. If the dwelling is located in a building which contains several dwellings or a combination of residential and business premises all of which the household owns the value is estimated as a portion of the market value that applies only to the dwelling in which the household resides.

[67] Subsidized housing refers to whether a renter household lives in a dwelling that is subsidized. Subsidized housing includes rent geared to income social housing public housing government-assisted housing non-profit housing rent supplements and housing allowances.

[68] Indigenous ancestry' refers to whether a person has ancestry associated with the Indigenous peoples of Canada that is First Nations (North American Indian) Métis and/or Inuit. Aboriginal peoples (referred to here as Indigenous peoples) of Canada are defined in the Constitution Act 1982 Section 35 (2) as including the Indian Inuit and Métis peoples of Canada. The term 'Aboriginal' has been replaced with the updated term of 'Indigenous' when referring to individuals who identify themselves as First Nations people Métis and/or Inuit. Ancestry refers to the ethnic or cultural origins of the person's ancestors an ancestor being usually more distant than a grandparent. A person can have more than one ethnic or cultural origin.

Users should be aware that the estimates associated with this variable are more affected than most by the incomplete enumeration of certain reserves and settlements in the Census of Population.

For more information on Indigenous variables including information on their classifications the questions from which they are derived data quality and their comparability with other sources of data please refer to the Indigenous Peoples Reference Guide Census of Population 2021 and the Indigenous Peoples Technical Report Census of Population 2021.

[69] Indigenous ancestry (only)' includes persons who have First Nations (North American Indian) Métis and/or Inuit ancestry. It excludes persons with non-Indigenous ancestry.

[70] Single Indigenous ancestry (only)' includes persons who have only one of First Nations (North American Indian) Métis or Inuit ancestry. It excludes persons with non-Indigenous ancestry.

[71] Multiple Indigenous ancestries (only)' includes persons who have two or more of First Nations (North American Indian) Métis and Inuit ancestries. It excludes persons with non-Indigenous ancestry.

[72] Indigenous and non-Indigenous ancestries' includes persons who have First Nations (North American Indian) Métis and/or Inuit ancestry as well as non-Indigenous ancestry.

[73] Single Indigenous and non-Indigenous ancestries' includes persons who have First Nations (North American Indian) Métis or Inuit ancestry as well as non-Indigenous ancestry.

[74] Multiple Indigenous and non-Indigenous ancestries' includes persons who have two or more of First Nations (North American Indian) Métis and Inuit ancestries as well as non-Indigenous ancestry.

[75] 'Non-Indigenous ancestry (only)' includes persons who have non-Indigenous ancestry only.

[76] 'Citizenship' refers to the country where the person has citizenship. A person may have more than one citizenship. A person may be stateless that is they may have no citizenship. Citizenship can be by birth or naturalization.

For more information on citizenship variables including information on their classifications the questions from which they are derived data quality and their comparability with other sources of data please refer to the Place of Birth Generation Status Citizenship and Immigration Reference Guide Census of Population 2021.

[77] 'Canadian citizens' includes persons who are citizens of Canada only and persons who are citizens of Canada and at least one other country.

[78] 'Not Canadian citizens' includes persons who are not citizens of Canada. They may be citizens of one or more other countries. Persons who are stateless are included in this category.

[79] 'Immigrant status' refers to whether the person is a non-immigrant an immigrant or a non-permanent resident.

'Period of immigration' refers to the period in which the immigrant first obtained landed immigrant or permanent resident status.

For more information on immigration variables including information on their classifications the questions from which they are derived data quality and their comparability with other sources of data please refer to the Place of Birth Generation Status Citizenship and Immigration Reference Guide Census of Population 2021.

[80] 'Non-immigrants' includes persons who are Canadian citizens by birth.

[81] 'Immigrants' includes persons who are or who have ever been landed immigrants or permanent residents. Such persons have been granted the right to live in Canada permanently by immigration authorities. Immigrants who have obtained Canadian citizenship by naturalization are included in this category. In the 2021 Census of Population 'Immigrants' includes immigrants who were admitted to Canada on or prior to May 11 2021.

[82] Includes immigrants who were admitted to Canada on or prior to May 11 2021.

[83] 'Non-permanent residents' includes persons from another country with a usual place of residence in Canada and who have a work or study permit or who have claimed refugee status (asylum claimants). Family members living with work or study permit holders are also included unless these family members are already Canadian citizens landed immigrants or permanent residents.

[84] 'Age at immigration' refers to the age at which an immigrant first obtained landed immigrant or permanent resident status.

'Immigrants' includes persons who are or who have ever been landed immigrants or permanent residents. Such persons have been granted the right to live in Canada permanently by immigration authorities. Immigrants who have obtained Canadian citizenship by naturalization are included in this category. In the 2021 Census of Population 'Immigrants' includes immigrants who were admitted to Canada on or prior to May 11 2021.

For more information on immigration variables including information on their classifications the questions from which they are derived data quality and their comparability with other sources of data please refer to the Place of Birth Generation Status Citizenship and Immigration Reference Guide Census of Population 2021.

[85] 'Immigrant' refers to a person who is or who has ever been a landed immigrant or permanent resident. Such a person has been granted the right to live in Canada permanently by immigration authorities. Immigrants who have obtained Canadian citizenship by naturalization are included in this group. In the 2021 Census of Population 'Immigrants' includes immigrants who were admitted to Canada on or prior to May 11 2021.

The places of birth selected are the most frequently reported by immigrants at the Canada level.

'Place of birth' refers to the name of the geographic location where the person was born. The geographic location is specified according to geographic boundaries current at the time of data collection not the geographic boundaries at the time of birth. In the 2021 Census of Population the geographic location refers to a country or area of interest if the person was born outside Canada.

For more information on the place of birth variables including information on their classifications the questions from which they are derived data quality and their comparability with other sources of data please refer to the Place of Birth Generation Status Citizenship and Immigration Reference Guide Census of Population 2021.

[86] Serbia excludes Kosovo.

[87] The official name of United Kingdom is United Kingdom of Great Britain and Northern Ireland. United Kingdom includes Scotland Wales England and Northern Ireland (excludes Isle of Man the Channel Islands and British Overseas Territories).

[88] The official name of Iran is Islamic Republic of Iran.

[89] The official name of Syria is Syrian Arab Republic.

[90] China excludes Hong Kong and Macao.

[91] The full name of Hong Kong is the Hong Kong Special Administrative Region of China.

[92] The official name of South Korea is Republic of Korea.

[93] The category 'Oceania and other' includes places of birth in Oceania and responses not included elsewhere such as 'born at sea.'

[94] 'Recent immigrant' refers to an immigrant who first obtained his or her landed immigrant or permanent resident status between January 1 2016 and May 11 2021.

'Immigrant' refers to a person who is or who has ever been a landed immigrant or permanent resident. Such a person has been granted the right to live in Canada permanently by immigration authorities. Immigrants who have obtained Canadian citizenship by naturalization are included in this group.

The places of birth selected are the most frequently reported by recent immigrants at the Canada level.

'Place of birth' refers to the name of the geographic location where the person was born. The geographic location is specified according to geographic boundaries current at the time of data collection not the geographic boundaries at the time of birth. In the 2021 Census of Population the geographic location refers to a country or area of interest if the person was born outside Canada.

For more information on the place of birth variables including information on their classifications the questions from which they are derived data quality and their comparability with other sources of data please refer to the Place of Birth Generation Status Citizenship and Immigration Reference Guide Census of Population 2021.

[95] The official name of Venezuela is Bolivarian Republic of Venezuela.

[96] Ireland is also referred to as Republic of Ireland.

[97] The full name of Sudan is the Republic of the Sudan.

[98] The category 'Other places of birth' includes other places of birth in Oceania and responses not included elsewhere such as 'born at sea.'

[99] 'Generation status' refers to whether or not the person or the person's parents were born in Canada.

For more information on generation status variables including information on their classifications the questions from which they are derived data quality and their comparability with other sources of data please refer to the Place of Birth Generation Status Citizenship and Immigration Reference Guide Census of Population 2021.

[100] 'First generation' includes persons who were born outside Canada. For the most part these are people who are now or once were immigrants to Canada.

[101] 'Second generation' includes persons who were born in Canada and had at least one parent born outside Canada. For the most part these are the children of immigrants.

[102] 'Third generation or more' includes persons who were born in Canada with all parents born in Canada.

[103] 'Admission category' refers to the name of the immigration program or group of programs under which an immigrant has been granted for the first time the right to live in Canada permanently by immigration authorities.

'Applicant type' refers to whether an immigrant was identified as the principal applicant the spouse or the dependant on their application for permanent residence.

'Immigrant' refers to a person who is or who has ever been a landed immigrant or permanent resident. Such a person has been granted the right to live in Canada permanently by immigration authorities. Immigrants who have obtained Canadian citizenship by naturalization are included in this group. In the 2021 Census of Population data on admission category and applicant type are available for immigrants who were admitted to Canada between January 1 1980 and May 11 2021.

For more information on immigration variables including information on their classifications data quality and their comparability with other sources of data please refer to the Place of Birth Generation Status Citizenship and Immigration Reference Guide Census of Population 2021.

[104] 'Economic immigrants' includes immigrants who have been selected for their ability to contribute to Canada's economy through their ability to meet labour market needs to own and manage or to build a business to make a substantial investment to create their own employment or to meet specific provincial or territorial labour market needs.

[105] 'Principal applicants' includes immigrants who were identified as the principal applicant on their application for permanent residence.

[106] 'Secondary applicants' includes immigrants who were identified as the married spouse the common-law or conjugal partner or the dependant of the principal applicant on their application for permanent residence.

[107] 'Immigrants sponsored by family' includes immigrants who were sponsored by a Canadian citizen or permanent resident and were granted permanent resident status on the basis of their relationship either as the spouse partner parent grand-parent child or other relative of this sponsor. The terms 'family class' or 'family reunification' are sometimes used to refer to this category.

[108] 'Refugees' includes immigrants who were granted permanent resident status on the basis of a well-founded fear of returning to their home country. This category includes persons who had a well-founded fear of persecution for reasons of race religion nationality membership in particular social group or for political opinion (Geneva Convention refugees) as well as persons who had been seriously and personally affected by civil war or armed conflict or have suffered a massive violation of human rights. Some refugees were in Canada when they applied for refugee protection for themselves and their family members (either with them in Canada or abroad). Others were abroad and were referred for resettlement to Canada by the United Nations Refugee Agency another designated referral organization or private sponsors.

[109] 'Other immigrants' includes immigrants who were granted permanent resident status under a program that does not fall under the economic immigrants the immigrants sponsored by family or the refugee categories.

[110] 'Pre-admission experience' refers to the category under which an immigrant was authorized to enter Canada for temporary residence purposes before admission as a landed immigrant or permanent resident.

In the 2021 Census of Population data on pre-admission experience are available for immigrants who were admitted to Canada between January 1 1980 and May 11 2021.

'Immigrant' refers to a person who is or who has ever been a landed immigrant or permanent resident. Such a person has been granted the right to live in Canada permanently by immigration authorities. Immigrants who have obtained Canadian citizenship by naturalization are included in this group.

For more information on immigration variables including information on their classifications the questions from which they are derived data quality and their comparability with other sources of data please refer to the Place of Birth Generation Status Citizenship and Immigration Reference Guide Census of Population 2021.

[111] This category includes immigrants who had an asylum claim before admission as a landed immigrant or permanent resident. This category includes immigrants who had an asylum claim with a work and/or study permit before admission.

[112] This category includes immigrants who had a work permit only before admission as a landed immigrant or permanent resident. A work permit is a document issued by Immigration Refugees and Citizenship Canada that authorizes a person to work on a temporary basis in Canada. Work permits set out conditions for the worker such as the type of work and employer location of work and timeline of work.

[113] This category includes immigrants who had a study permit only before admission as a landed immigrant or permanent resident. A study permit is a document issued by Immigration Refugees and Citizenship Canada that authorizes a person to study at an educational institution in Canada for the duration of the program of study.

[114] This category includes immigrants who had both a work and a study permit before admission as a landed immigrant or permanent resident.

[115] This category includes immigrants who had a permit other than a work permit study permit or asylum claim before admission as a landed immigrant or permanent resident.

[116] This category includes immigrants who did not have a permit for temporary residence purposes before admission as a landed immigrant or permanent resident.

[117] 'Visible minority' refers to whether a person is a visible minority or not as defined by the Employment Equity Act. The Employment Equity Act defines visible minorities as "persons other than Aboriginal peoples who are non-Caucasian in race or non-white in colour." The visible minority population consists mainly of the following groups:
South Asian Chinese Black Filipino Arab Latin American Southeast Asian West Asian Korean and Japanese.

In 2021 Census analytical and communications products the term "visible minority" has been replaced by the terms "racialized population" or "racialized groups" reflecting the increased use of these terms in the public sphere.

For more information on visible minority and population group variables including information on their classifications the questions from which they are derived data quality and their comparability with other sources of data please refer to the Visible Minority and Population Group Reference Guide Census of Population 2021.

[118] In 2021 Census analytical and communications products the term "visible minority" has been replaced by the terms "racialized population" or "racialized groups" reflecting the increased use of these terms in the public sphere.

[119] The abbreviation "n.i.e." means "not included elsewhere." This category includes persons who provided responses that are classified as a visible minority but that cannot be classified with a specific visible minority group. Such responses include for example "Guyanese " "Pacific Islander " "Polynesian " "Tibetan" and "West Indian."

[120] In 2021 Census analytical and communications products this category is referred to as "the rest of the population."

[121] 'Ethnic or cultural origin' refers to the ethnic or cultural origins of the person's ancestors.

Ancestors may have Indigenous origins origins that refer to different countries or other origins that may not refer to different countries.

The sum of the ethnic or cultural origins in this table is greater than the total population estimate because a person may report more than one ethnic or cultural origin in the census.

The ethnic groups selected are the most frequently reported at the Canada level.

For more information on ethnic or cultural origin variables including information on their classifications the questions from which they are derived data quality and their comparability with other sources of data please refer to the Ethnic or Cultural Origin Reference Guide Census of Population 2021.

[122] The abbreviation "n.o.s." means "not otherwise specified." This category includes responses indicating French origins not otherwise specified (e.g. "French").

[123] The abbreviation "n.o.s." means "not otherwise specified." This category includes responses indicating British Isles origins not otherwise specified (e.g. "British " "United Kingdom").

[124] The abbreviation "n.o.s." means "not otherwise specified." This category includes responses indicating Caucasian (White) origins not otherwise specified (e.g. "Caucasian").

[125] The abbreviation "n.o.s." means "not otherwise specified." This category includes responses indicating First Nations (North American Indian) origins not otherwise specified (e.g. "First Nations " "North American Indian").

[126] The abbreviation "n.o.s." means "not otherwise specified." This category includes responses indicating European origins not otherwise specified (e.g. "European").

[127] The abbreviation "n.o.s." means "not otherwise specified." This category includes responses indicating African origins not otherwise specified (e.g. "African").

[128] The abbreviation "n.o.s." means "not otherwise specified." This category includes responses indicating Arab origins not otherwise specified (e.g. "Arab").

[129] The abbreviation "n.o.s." means "not otherwise specified." This category includes responses indicating Asian origins not otherwise specified (e.g. "Asian").

[130] The abbreviation "n.o.s." means "not otherwise specified." This category includes responses indicating Cree origins not otherwise specified (e.g. "Cree").

[131] The abbreviation "n.i.e." means "not included elsewhere." This category includes responses indicating Christian origins not included elsewhere (e.g. "Christian " "Baptist " "Catholic").

[132] The abbreviation "n.o.s." means "not otherwise specified." This category includes responses indicating North American Indigenous origins not otherwise specified (e.g. "Aboriginal " "Indigenous").

[133] The abbreviation "n.o.s." means "not otherwise specified." This category includes responses indicating South Asian origins not otherwise specified (e.g. "South Asian").

- [134] The abbreviation "n.o.s." means "not otherwise specified." This category includes responses indicating Mi'kmaq origins not otherwise specified (e.g. "Mi'kmaq").
- [135] The abbreviation "n.o.s." means "not otherwise specified." This category includes responses indicating Northern European origins not otherwise specified (e.g. "Northern European " "Scandinavian").
- [136] The abbreviation "n.o.s." means "not otherwise specified." This category includes responses indicating Latin Central or South American origins not otherwise specified (e.g. "Latin American " "South American").
- [137] The abbreviation "n.o.s." means "not otherwise specified." This category includes responses indicating Black origins not otherwise specified (e.g. "Black").
- [138] The abbreviation "n.o.s." means "not otherwise specified." This category includes responses indicating Inuit origins not otherwise specified (e.g. "Inuit").
- [139] The abbreviation "n.o.s." means "not otherwise specified." This category includes responses indicating Eastern European origins not otherwise specified (e.g. "Eastern European").
- [140] The abbreviation "n.o.s." means "not otherwise specified." This category includes responses indicating East or Southeast Asian origins not otherwise specified (e.g. "East Asian " "Southeast Asian").
- [141] The abbreviation "n.o.s." means "not otherwise specified." This category includes responses indicating West or Central Asian or Middle Eastern origins not otherwise specified (e.g. "Central Asian " "Middle Eastern " "West Asian").
- [142] The abbreviation "n.o.s." means "not otherwise specified." This category includes responses indicating Caribbean origins not otherwise specified (e.g. "Caribbean").
- [143] The abbreviation "n.o.s." means "not otherwise specified." This category includes responses indicating West Indian origins not otherwise specified (e.g. "West Indian").
- [144] The abbreviation "n.o.s." means "not otherwise specified." This category includes responses indicating Hispanic origins not otherwise specified (e.g. "Hispanic").
- [145] The abbreviation "n.o.s." means "not otherwise specified." This category includes responses indicating Western European origins not otherwise specified (e.g. "Western European").
- [146] The abbreviation "n.o.s." means "not otherwise specified." This category includes responses indicating Czechoslovakian origins not otherwise specified (e.g. "Czechoslovakian").
- [147] The abbreviation "n.o.s." means "not otherwise specified." This category includes responses indicating Yugoslavian origins not otherwise specified (e.g. "Yugoslavian").
- [148] The abbreviation "n.o.s." means "not otherwise specified." This category includes responses indicating Slavic origins not otherwise specified (e.g. "Slavic").
- [149] The abbreviation "n.o.s." means "not otherwise specified." This category includes responses indicating Innu origins not otherwise specified (e.g. "Innu " "Montagnais").
- [150] The abbreviation "n.o.s." means "not otherwise specified." This category includes responses indicating Celtic origins not otherwise specified (e.g. "Celtic").
- [151] The abbreviation "n.o.s." means "not otherwise specified." This category includes responses indicating North American origins not otherwise specified (e.g. "North American").
- [152] The abbreviation "n.o.s." means "not otherwise specified." This category includes responses indicating Dene origins not otherwise specified (e.g. "Dene").
- [153] The abbreviation "n.o.s." means "not otherwise specified." This category includes responses indicating Blackfoot origins not otherwise specified (e.g. "Blackfoot").
- [154] The abbreviation "n.o.s." means "not otherwise specified." This category includes responses indicating Iroquoian (Haudenosaunee) origins not otherwise specified (e.g. "Iroquois " "Haudenosaunee").
- [155] The abbreviation "n.o.s." means "not otherwise specified." This category includes responses indicating North African origins not otherwise specified (e.g. "North African").
- [156] The abbreviation "n.o.s." means "not otherwise specified." This category includes responses indicating Southern or East African origins not otherwise specified (e.g. "East African").
- [157] The abbreviation "n.o.s." means "not otherwise specified." This category includes responses indicating Anishinaabe origins not otherwise specified (e.g. "Anishinaabe").
- [158] The abbreviation "n.o.s." means "not otherwise specified." This category includes responses indicating Bantu origins not otherwise specified (e.g. "Bantu").
- [159] The abbreviation "n.o.s." means "not otherwise specified." This category includes responses indicating Akan origins not otherwise specified (e.g. "Akan").
- [160] The abbreviation "n.o.s." means "not otherwise specified." This category includes responses indicating Central or West African origins not otherwise specified (e.g. "Central African " "West African").
- [161] 'Religion' refers to the person's self-identification as having a connection or affiliation with any religious denomination group body or other religiously defined community or system of belief. Religion is not limited to formal membership in a religious organization or group.

This variable shows the aggregated responses to the religion question.

For infants or children religion refers to the specific religious group or denomination in which they are being raised if any.

Persons without a religious connection or affiliation can self-identify as atheist agnostic or humanist or can provide another applicable response.

For more information on religion variables including information on their classifications the questions from which they are derived data quality and their comparability with other sources of data please refer to the Religion Reference Guide Census of Population 2021.

- [162] The abbreviation "n.o.s." means "not otherwise specified." This category includes responses of "Christian " not otherwise specified (e.g. "Christian " "Christianity").
- [163] Refers to the status of a person with regard to the place of residence on the reference day May 11 2021 in relation to the place of residence on the same date one year earlier at the provincial level. Persons who have not moved are referred to as non-movers and persons who have moved from one residence to another are referred to as movers. Movers include non-migrants and migrants. Non-migrants are persons who did move but remained in the same city town township village or Indian reserve. Migrants include internal migrants who moved to a different city town township village or Indian reserve within Canada. External migrants include persons who lived outside Canada at the earlier reference date.
- [164] Refers to the status of a person with regard to the place of residence on the reference day May 11 2021 in relation to the place of residence on the same date five years earlier at the provincial level. Persons who have not moved are referred to as non-movers and persons who have moved from one residence to another are referred to as movers. Movers include non-migrants and migrants. Non-migrants are persons who did move but remained in the same city town township village or Indian reserve. Migrants include internal migrants who moved to a different city town township village or Indian reserve within Canada. External migrants include persons who lived outside Canada at the earlier reference date.
- [165] For information on data quality for this variable refer to the Education Reference Guide Census of Population 2021 Catalogue no. 98-500-X2021013.
- [166] This includes all persons with a high school diploma or equivalency certificate regardless of whether they also completed a postsecondary certificate diploma or degree.
- [167] 'High (secondary) school diploma or equivalency certificate' includes only people who have this as their highest educational credential. It excludes persons with a postsecondary certificate diploma or degree.
- [168] Non-apprenticeship trades certificate or diploma' includes trades certificates or diplomas such as pre-employment or vocational certificates and diplomas from brief trade programs completed at colleges institutes of technology vocational centres and similar institutions.
It also includes qualifications from vocational training programs in the province of Quebec such as the Diplôme d'études professionnelles (DEP)/Diploma of Vocational Studies (DVS).
- [169] 'Apprenticeship certificate' includes Certificates of Apprenticeship Certificates of Qualification and Journey person's designations.

[170] College CEGEP and other non-university certificates and diplomas obtained from programs that are typically completed in less than three months are not included in this category.

[171] 'Earned doctorate' does not include honorary doctorates.

[172] This variable shows the 'Variant of CIP 2021 - Alternative primary groupings' with the hierarchy of the primary groupings and two-digit series. When a primary grouping contains more than one subseries from series '30. Multidisciplinary/interdisciplinary studies' these subseries are grouped together. An exception is made for '30.01 Biological and physical sciences' due to its large size. For more information on the CIP classification see the Classification of Instructional Programs Canada 2021.

For information on classification and data quality for this variable refer to the Education Reference Guide Census of Population 2021 Catalogue no. 98-500-X2021013.

[173] 'No postsecondary certificate diploma or degree' is made up of persons who have not completed any credentials above a high school diploma.

[174] Includes '30.13 Medieval and renaissance studies '30.21 Holocaust and related studies '30.22 Classical and ancient studies '30.29 Maritime studies '30.45 History and language/literature '30.47 Linguistics and anthropology '30.51 Integrated philosophy politics and economics '30.52 Digital humanities and textual studies' and '30.53 Thanatology.'

[175] Includes '30.05 Peace studies and conflict resolution '30.11 Gerontology '30.14 Museology/museum studies '30.15 Science technology and society '30.17 Behavioural sciences '30.20 International/globalization studies '30.23 Intercultural/multicultural and diversity studies '30.25 Cognitive science '30.26 Cultural studies/critical theory and analysis '30.28 Dispute resolution '30.31 Human computer interaction '30.33 Sustainability studies '30.34 Anthrozoology '30.36 Cultural studies and comparative literature '30.40 Economics and foreign language/literature '30.44 Geography and environmental studies' and '30.46 History and political science.'

[176] Includes '30.10 Biopsychology '30.18 Natural sciences '30.19 Nutrition sciences '30.27 Human biology '30.32 Marine sciences '30.35 Climate science '30.38 Earth systems science '30.41 Environmental geosciences '30.42 Geoarchaeology '30.43 Geobiology' and '30.50 Mathematics and atmospheric/oceanic science.'

[177] Includes '30.06 Systems science and theory '30.08 Mathematics and computer science '30.30 Computational science '30.39 Economics and computer science '30.48 Linguistics and computer science '30.49 Mathematical economics '30.70 Data science' and '30.71 Data analytics.'

[178] Veterinary medicine veterinary science veterinary technology and veterinary administrative support services which were included in series '51. Health professions and related programs' in CIP 2016 are now included in series '01. Agricultural and veterinary sciences/services/operations and related fields' in CIP 2021.

[179] Includes '30.00 Inclusive postsecondary education' and '30.99 Multidisciplinary/interdisciplinary studies other.'

[180] For information on classification and data quality for this variable refer to the Education Reference Guide Census of Population 2021 Catalogue no. 98-500-X2021013.

[181] 'Postsecondary certificate diploma or degree' includes 'apprenticeship or trades certificate or diploma 'college CEGEP or other non-university certificate or diploma' and university certificates diplomas and degrees.

[182] The location of study is not compared with the location of residence for persons who studied outside Canada. The locations of study outside Canada that are listed here are those which were the most frequently reported at the Canada level.

[183] The official name of Moldova is Republic of Moldova.

[184] Refers to whether a person aged 15 years and over was employed unemployed or not in the labour force during the week of Sunday May 2 to Saturday May 8 2021.

For information on the comparability of the 2021 Census labour force status data with those of the Labour Force Survey see Appendix 2.11 of the Dictionary Census of Population 2021.

[185] Refers to the number of weeks in which a person aged 15 years and over worked for pay or in self-employment in 2020 at all jobs held even if only for a few hours and whether these weeks were mostly full time (30 hours or more per week) or mostly part time (less than 30 hours per week).

[186] Includes persons aged 15 years and over who never worked persons who worked prior to 2020 and persons who worked in 2021 but not in 2020.

[187] Includes persons aged 15 years and over who never worked persons who worked prior to 2020 and persons who worked in 2021 but not in 2020.

[188] Includes persons aged 15 years and over who worked†full year mostly part time or part year either mostly full time or mostly part time in 2020. Part year is less than 49 weeks and part time is less than 30 hours per week.

[189] Class of worker including job permanency refers to whether a person is a paid employee or is self-employed. Employees' positions are further classified as either permanent or temporary.

[190] Includes unemployed persons aged 15 years and over who have never worked for pay or in self-employment or who had last worked prior to January 1 2020.

[191] Includes persons aged 15 years and over in the labour force who have worked at some point in time between January 1 2020 and May 8 2021.

[192] Includes self-employed persons aged 15 years and over with or without an incorporated business and with or without paid help as well as unpaid family workers.

[193] Refers to the kind of work performed by persons aged 15 years and over as determined by their kind of work and the description of the main activities in their job. The occupation data are produced according to the National Occupational Classification [NOC] 2021 Version 1.0.

[194] Refers to the general nature of the business carried out in the establishment where the person worked. The industry data are produced according to the North American Industry Classification System (NAICS) Canada 2017 Version 3.0.

[195] All languages used at work refers to all languages that the person uses in their job on a regular basis.

For more information on language variables including information on their classifications the questions from which they are derived data quality and their comparability with other sources of data please refer to the Languages Reference Guide Census of Population 2021.

[196] Language used most often at work†refers to the language the person uses most often at work.

A person can report more than one language as "used most often at work" if the languages are used equally often.

n.i.e. = not included elsewhere

n.o.s. = not otherwise specified

For more information on language variables including information on their classifications the questions from which they are derived data quality and their comparability with other sources of data please refer to the Languages Reference Guide Census of Population 2021.

[197] Other language(s) used regularly at work refers to the languages if any that the person uses in their job on a regular basis other than the language or languages they use most often at work.

Comparisons to previous census data is not recommended for the †Other languages used regularly at work† variable.

For more information on language variables including information on their classifications the questions from which they are derived data quality and their comparability with other sources of data please refer to the Languages Reference Guide Census of Population 2021.

[198] Place of work status refers to whether a person worked at home worked outside Canada had no fixed workplace address or worked at a specific address (usual place of work).

[199] Commuting destination refers to whether or not a person commutes to another municipality (i.e. census subdivision) another census division or another province or territory. Commuting refers to the travel of a person to their usual place of work.

[200] Main mode of commuting refers to the main mode of transportation a person uses to travel to their place of work.

The census assumes that the commute to work originates from the usual place of residence but this may not always be the case. Sometimes respondents may be on a business trip and may have reported their place of work or main mode of commuting based on where they were working during the trip. Some persons maintain a residence close to work and commute to their home on weekends. Students often work after school at a location near their school. As a result the data may show unusual commutes or unusual main modes of commuting.

[201] Commuting duration refers to the length of time in minutes usually required by a person to travel to their place of work.

[202] Time leaving for work refers to the time of day at which a person usually leaves to go to their place of work.

[203] Eligibility for instruction in the minority official language indicates whether a child is eligible for instruction at the primary and secondary levels in English in Quebec or in French in Canada outside Quebec pursuant to the Canadian Charter of Rights and Freedoms' criteria except citizenship.

In the 2021 Census the child eligible for instruction in the minority official language is younger than 18 years of age on December 31 2020.

More information on the variables related to instruction in the minority official language including definitions concepts and classifications the questions from which they are derived and data quality can be found in the Instruction in the Minority Official Language Reference Guide Census of Population 2021 and the Minority language educational rights: Technical report on changes for the 2021 Census.

[204] Eligibility for instruction in the minority official language indicates whether a child is eligible for instruction at the primary and secondary levels in English in Quebec or in French in Canada outside Quebec pursuant to the Canadian Charter of Rights and Freedoms' criteria except citizenship.

In the 2021 Census the child eligible for instruction in the minority official language is younger than 18 years of age on December 31 2020. However the total population for this profile is school-aged children born between 2003 and 2015 (inclusive) representing children 5 to 17 years of age on December 31 2020.

For residents of Quebec instruction in the minority official language at the primary or secondary level in Canada refers to children who have been instructed for at least one year in an English-language school (including in a French immersion program in an English-language school) at the primary or secondary level in Canada. For residents of Canada outside Quebec it refers to children who have been instructed for at least one year in a regular French program in a French-language school (excluding in a French immersion program in an English-language school) at the primary or secondary level in Canada.

More information on the variables related to instruction in the minority official language including definitions concepts and classifications the questions from which they are derived and data quality can be found in the Instruction in the Minority Official Language Reference Guide Census of Population 2021 and the Minority language educational rights: Technical report on changes for the 2021 Census.

Data quality:

Quaqtaq, Village nordique (VN)

Total non-response (TNR) rate, short-form census questionnaire: 26.4%

Total non-response (TNR) rate, long-form census questionnaire: 27.8%
